

LEVEL 2 COVID-19 ALERT

Limiting Disease spread and contamination at doctors surgeries

From Wednesday 8 September 2021 we will continue doing phone consultations and will do triage to assess safety for every patient in the first instance. Phone consultations will incur the same charges as an office visit, but if, having done a phone triage assessment, it is clear that you need to see a GP, then a normal GP consult can be arranged at no extra cost. We ask that you do not turn up to the medical centre without phoning first, or have spoken to a doctor - you will NOT be seen.

ALL Covid immunisations will continue as usual.

We will still be able to do repeat prescriptions, ACC, and WINZ forms using telephone consultations only, but please arrange a face to face consultation if needed. Payment of accounts can also be made online and banking details can be found on this website.
